

Mindcore VDI/DaaS			Application Security, Vulnerability & Management				
Linux/Windows	Microsoft AVD	GPU	Vulernability Management	Threat Modeling	Web Application Firewall	Application Layering	Penetration Testing
Mindcore SKD (Software Fvelopment Kit)			Mindcore AI 2.0			Identity Manager 4.0	
Networking	Cybersecurity		Data Security & Governance	Data & System Isolation		Access Control	
Collaboration & Comms	Identity & Access Mngt		Access Control	Audit, Monitoring, & Reporting		Privileged Access Management	
Mindcore Manager 3.0							
Secure Perimeter Data Enclave		Centralized Management		Centralized Provisioning/Optimization		Password Control	
Incident Monitoring and Response							
Digital Forensics	Activity Monitoring & Analysis	Endpoint & Detection Response	Threat Intelligence				
Incident Monitoring & Response	Log Management	Incident Management	Network Detection & Response				
Endpoint Protector 4.5		Mindcore Crypto 3.0		Quick Protection 3.5		Cloud Protector 4.0	
Advance Endpoint Segmentation	Data In - Transit Encryption	Data Discovery & Classification		Cloud Security Posture Management		Resilience & Connectivity	
Workload Management	Data At-Rest Encryption	Data Right Management		Container Security		Backup & Restore	
Application Whitelisting	Certificate Management	File Monitoring		Cloud Access Security Broker		Business Continuity	
System Images & Patch Management	Key Management	Data Activity Monitoring		Workload Protection		Disaster Recovery	
Anti - Virus		Data Loss Prevention		Secure Landing Zones		On-Prem to Cloud Connectivity	
		Data Transfer					
		Role Based Access Mngt					
Infrastructure Protection							
Network Segmentation		APT Protection		Firewall		Instrusion Detection	
API Gateway		Web Gateway		DNS Security		DDOS
