

Mindcore VDI/DaaS			Application Security, Vulnerability & Management				
Linux/Windows	Microsoft AVD	GPU	Vulernability Management	Threat Modeling	Web Application Firewall	Application Layering	Penetration Testing
Mindcore SKD (Software Fvelopment Kit)			Mindcore AI 2.0			Identity Manager 4.0	
Networking	Cybersecurity		Data Security & Governance	Data & System Isolation		Access Control	
Collaboration & Comms	Identity & Access Mngt		Access Control	Audit, Monitoring, & Reporting		Privileged Access Management	
Mindcore Manager 3.0							Password Control
Secure Perimeter Data Enclave		Centralized Management		Centralized Provisioning/Optimization		Multi-Factor Authentication	
Incident Monitoring and Response							Remote Access Protection
Digital Forensics	Activity Monitoring & Analysis	Endpoint & Detection Response	Threat Intelligence			Single Sign - on	
Incident Monitoring & Response	Log Management	Incident Management	Network Detection & Response			Federated Access	
Endpoint Protector 4.5	Mindcore Crypto 3.0	Quick Protection 3.5	Cloud Protector 4.0	Resilience & Connectivity			
Advance Endpoint Segmentation	Data In - Transit Encryption	Data Discovery & Classification	Cloud Security Posture Management	Backup & Restore			
Workload Management	Data At-Rest Encryption	Data Right Management	Container Security	Business Continuity			
Application Whitelisting	Certificate Management	File Monitoring	Cloud Access Security Broker	Disaster Recovery			
System Images & Patch Management	Key Management	Data Activity Monitoring	Workload Protection	On-Prem to Cloud Connectivity			
Anti - Virus		Data Loss Prevention	Secure Landing Zones				
		Data Transfer					
		Role Based Access Mngt					
Infrastructure Protection							
Network Segmentation		APT Protection	Firewall	Network IPS/IOS	Instrusion Detection		
API Gateway		Web Gateway	DNS Security	SSL Offloading	DDOS
